

ADVENTURE SKILLS - AIR ACTIVITIES

Stage 9

I know the principle of flight of a helicopter.

I know how the controls of a helicopter work.

I know the dangers regarding specific aerial activities.

I know how the constellation of satellites work to provide GPS navigation.

I understand how telemetry helps develop aviation products.

I have an understanding of radar and how ATC use it.

I can arrange for a suitably experienced instructor to give an air experience flight.

I have taken part in 2 additional air activities that got me airborne.
