

STRUCTURAL REVIEW SUB-COMMITTEE

13/07/2023

Dear Members of Scouting Ireland,

Recently the Board of Directors have convened a Sub-Committee to oversee a Structural Review Process within Scouting Ireland.

The Sub-Committee currently consists of three Directors and we are now moving to an Open Call process to co-opt up to six additional members with the relevant skills and competencies to assist the Sub-Committee in it's Review.

Fit for Purpose Structures in any organisation need to be dynamic to suit the need of the people it serves, and the Board believes that it is time for us in Scouting Ireland to look at our structures and examine if they are fit for purpose.

I would encourage any member who believes they have something to offer the Sub-Committee's work, to apply to the Open Call.

We are excited about beginning this process and committed to keeping members fully apprised throughout the whole process.

Yours in Scouting,

Evan O'Connell

Chair of the Structural Review Sub-Committee
Scouting Ireland
